Description: [Whalebone](#) is an IT security startup company located in offices in Brno, Czech Republic and Vienna, Austria. It protects internet users and machines without installing any software in the end devices. That is possible thanks to partnerships with TelCo companies - thus the protection runs on the network level and can be switched on in the TelCo consumer portal. Whalebone currently serves over 100.000 households in Central Europe.

Whalebone collaborates with leading companies in the region, i.e. A1 Telekom Austria Group or ESET.

This internship is a perfect opportunity for people with Business Management / Marketing related studies in their last (two) years of studies to gain experience in Market Entry, Market Build-up, International Trade&Expansion, Entrepreneurship, Marketing, Sales, working in the international environment and much more.
